CHANGINS

Master of Science HES-SO in Life Sciences (MLS)

Major in Viticulture & Enology

in cooperation with

the International Vinifera EuroMaster

swissuniversities

Presentation

The grape and wine industry is confronted with ever increasing challenges. The ongoing climate change requires new cultivars and new production techniques; advances in modern technology call for new skills; the increasing complexity of the social and economic environment demands innovation and anticipation to stay competitive and satisfy rapidly changing needs.

This major provides students with the tools to analyse and resolve complex problems in Viticulture and Enology, from grape to wine, from management to market, on a strategic and operational level. Students learn how to operate efficiently and effectively in the economic, ecological and political environment of today's grape and wine industry. Acquired skills enable students to think creatively and flexibly, and to implement innovation for grape growing, wine making and wine business.

The Viticulture and Enology Major (VE) of the Master of Science in Life Sciences (MLS) is offered as a double diploma from the University of Applied Sciences and Arts Western Switzerland HES-SO and the International Vinifera EuroMaster. This curriculum offers students unique opportunity to share professional experience and expand their international network within the Life Science community.

All classes are in English.

Two-in-one diploma 120 ECTS

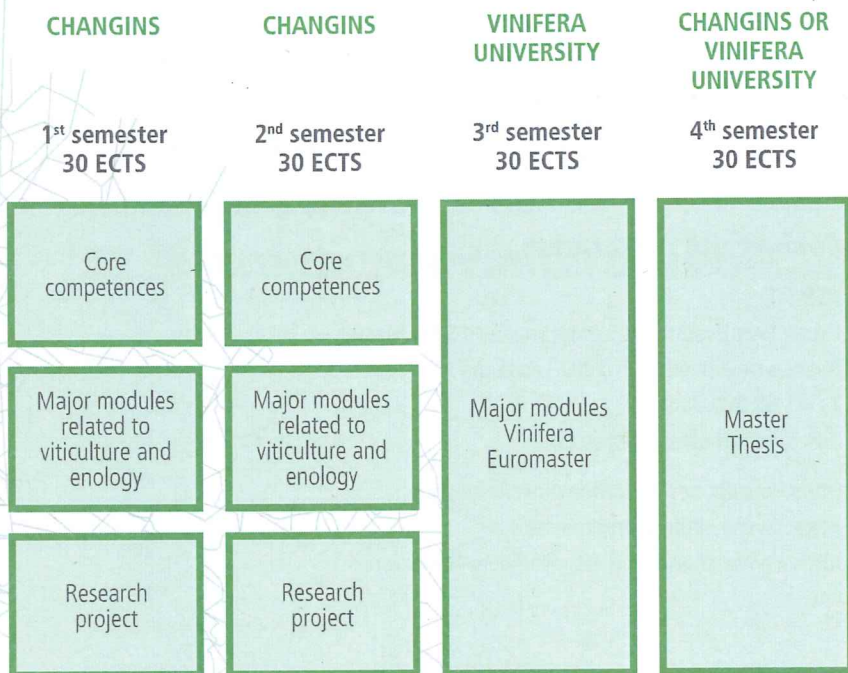

Master of Science HES-SO in Life Sciences, specialization Viticulture and Enology

The Vinifera EuroMaster diploma

Curriculum

Students following this 120 ECTS program in English will spend the first year in Changins. The second year will take place in one of the Universities from the Vinifera EuroMaster Consortium : Hochschule Geisenheim University (Germany), Università di Torino (Italy), Università degli Studi di Udine (Italy), Universidade de Lisboa (Portugal), Supagro Montpellier (France) or Universidad Politécnica de Madrid (Spain).

Admission

Admission decisions will be based on the candidate's portfolio. Requirements are as follows : UAS Bachelor's degree in viticulture and enology (or related field)

Bachelor's degree in a related field from a University or Institute of Technology, subject to completing a practical internship.

Other applications are judged on the academic curriculum and practical experience.

Candidates must hold a B2 level in English according to the Common European Framework of Reference for Languages.

Registration from December until April 30.
